LEAST-REACHED PEOPLES OF SOUTH PACIFIC & SOUTHEAST ASIA

Overview:

The first missionaries that went to the 27 island nations of the South Pacific 200 years ago were stunned by the beautiful green landscapes and women with long, black hair. But they were also appalled by immorality, human sacrifices and idolatry. Thanks to their hard work, it is difficult to find ethnic groups in this part of the world that have no contact with the gospel—only 27 people groups remain here with less than 2% evangelical believers and less than 5% adherents to any form of Christianity. Now Pacific Islanders are taking the gospel a step further by sending and being sent as missionaries themselves. The 11 nations of Southeast Asia once were Hindu, later Buddhist and now most are Muslim. Over 600 least-reached people groups remain here now and the gospel is slowly making inroads, though five nations still have more than 50% of their populations among least-reached groups and well over 130 million people are still considered least-reached in this region. Through SEALINK, the Southeast Asia unreached peoples partnership, more and more of the peoples of this region are beginning to hear and respond to the gospel. Pray for spiritual obstacles to be removed and for God to quickly establish vibrant fellowships of believers among all groups, peoples joining together to glorify God among all peoples.

MetaCamp ***NORTHEAST ASIA***

Overview:

The 7 countries of Northeast Asia are lands humming with action. China, Japan, and South Korea have economies that are growing at rates that almost defy imagination. The 21st century could easily be the time when Korean and Chinese missionaries take the lead in reaching the world for Christ. Presently, Korea is the second largest sending base in the world and has just celebrated the 100th anniversary of the great Korean revival of the early 1900's when Pyongyang was known as the "Jerusalem of Asia." But China may soon catch up and surpass them because of their "Back to Jerusalem" vision to send Chinese missionaries back along the old Silk Road carrying the gospel back to Jerusalem. Also, this is the first time when Mongolia has had a lasting church and they too are already sending missionaries to other nations. Yet, over 450 people groups in Northeast Asia remain Least-Reached. North Korea, Mongolia, and Japan remain formidable challenges with over 95% least-reached. But China itself, although only 10.9% of its population, over 424 least-reached peoples remain to be reached with the good news! God's time for Northeast Asia is now!

LEAST-REACHED BUDDHIST PEOPLES OF SOUTH ASIA

Overview:

Buddhism began in South Asia and has spread throughout Asia and now the world. A daughter of Hinduism and deeply colors by it. Buddhism is a worldwide missionary faith with influence over 1.38 billion people today. Over 250 least-reached Buddhist people groups have their home in South Asia, especially in India, Sri Lanka, Bhutan, and Nepal. Bhutan is the only officially Tibetan Buddhist kingdom on earth. Lumbini, in Nepal, is considered the traditional birthplace of the Buddha, and Sri Lanka prides itself on being the oldest continually Buddhist country on earth. Bihar, in India, is the birthplace of Buddhism, traditionally considered to be the site of Buddha's enlightenment, but Buddhism thinking influences a much wider population. A do-it-yourself religion, Buddhism has great appeal to the West and much of the funding to revitalize Buddhism in Asia comes from this source. The Tibetan form of Buddhism is especially strong. Many Tibetans were expelled from China with their spiritual and political leader, the Dalai Lama. There are still over 35 Tibetan settlements and numerous smaller communities in India where they seek to keep their cultural identity alive while adapting to life in a foreign country. Neo-Buddhists also figure prominently as hundreds of thousands of Dalit and OBC (Other backward castes) of India seek to convert wholesale to Buddhism to escape the oppressive social evils of the caste system in Hinduism. Pray for God to shine His Light in the hearts of those living in the shadow of Buddha in South Asia and around the world.

LEAST-REACHED HINDU PEOPLES OF SOUTH ASIA

Overview:

Hinduism is a religion that originated on the Indian subcontinent, with its origins in the Vedic civilization and, to a minor degree, in the Indus Valley Civilization. It has no known founder, being itself a conglomerate of diverse beliefs and traditions and is considered by some as the world's oldest extant religion, and has approximately a billion adherents, of whom about 905 million live in India and Nepal, placing it as the world's third largest religion after Christianity and Islam. Other countries with large Hindu populations include Sri Lanka, Bangladesh, Indonesia, Malaysia, Fiji, Suriname, Guyana and Trinidad and Tobago. Most forms of Hinduism are henotheistic religions which recognize a single deity, and view other Gods and Goddesses as manifestations or aspects of that supreme God. Until recently, a Hindu nationalistic political party controlled the government of India and linkage of religion, the national government, and nationalism led to an escalation of anti-Christian violence. Dalit and other outcaste groups have sought escape from the oppressive caste system by wholesale conversions to Buddhism, Islam, and Christianity recently. Pray for God to reveal Himself to every one of the 2,285 least-reached Hindu peoples in South Asia.

LEAST-REACHED MUSLIM PEOPLES OF SOUTH ASIA

Overview:

Islam is the world's second largest religion with a following of over one billion people called Muslims representing one-fifth of humanity. The word "Islam" actually means "submission to God;" therefore, "a Muslim is one who strives to submit to God." Islam was founded in 610 A.D. by a man named Mohammed. During Mohammed's time, polytheism reigned. During one of Mohammed's trips as a trader, he had a vision from a being he perceived to be an angel who said, "There is only one God, and His name is Allah. Worship Him." Islam has now spread all across the globe, predominantly in Africa, the Middle East, and Asia. About 60% of Muslims are Asian, 22% are found in the Arab world, 12% in sub-Sahara Africa, and 5% in Europe. 564 least-reached people groups in South Asia are Muslim. Although the two religions share some terminology and even some theology (monotheism, for instance), Islam is fundamentally different from Christianity. Islam is a works-oriented religion, while Christian faith is based on salvation by grace through faith as a result of the shed blood of Christ. The Muslim's holy book is called the Quran which they believe was dictated to Mohammed by God through the angel Gabriel. Muslims are also told in the Quran to read three other holy books: the Torah (which are the first five books of the Old Testament), the Zabur (which are the Psalms of David), and the Injeel (the gospel of Christ). God is at work among the Muslim peoples of South Asia and around the world today in amazing ways.

MetaCamp **CENTRAL ASIA**

Overview:

Trade and Islam beat a path through the Silk Roads of the 11 countries of Central Asia, much of which could not be changed by 70 years of Soviet rule. Most of the languages here have been Turkish-based since the early days of Turkey's Ottoman Empire. Most other languages in this region are based on Farsi, the tongue of Persia, Central Asia's other traditional world power. All but two of the countries in this region are over 90% least-reached peoples, with Pakistan by far the largest—150 million people within 468 people groups still least-reached in this country alone. Almost 850 people groups remain with less than 2% evangelical believers and less than 5% adherents to any form of Christianity. The marginally Muslim peoples of the Turkish World are looking for a new identity. Will they make their identity in Christ, or in something much lower?

MIDDLE EAST & NORTH AFRICA

Overview:

Half the 19 countries in the Middle East/North Africa still have over 90% of their population least-reached in over 360 people groups. Christ was born in this region, but he is honored as a prophet, not as Lord by the Sunni Muslims who are the majority here. Arabs and Bedouins make up the bulk of the population, though Berbers are more prominent as one moves further west in North Africa. Israel has the largest number of least-reached peoples per country—41 people groups! Israel wavers between Orthodox and a secular forms of Judaism, while Messianic Jews try to influence God's chosen people. MetaCamp *EAST & SOUTH AFRICA*

Overview:

The 27 countries in eastern and southern Africa are already fairly well evangelized, but there are more than 330 remaining least-reached peoples especially in the Horn of Africa and among the Hindu and Muslim immigrant groups in East Africa. Ethiopia has over 18 million people among its 32 least-reached groups, representing 21.2% of its population. Sudan has over 19 million people in 133 least-reached groups, representing 57.5% of its population. However, nations like Comoros, Somalia, Djibouti, and Mayotte have over 90% of their population in least-reached groups! Much work remains! The peaceful ending of apartheid in South Africa and the translation to multi-racial democratic government was considered impossible but the miracle occurred in answer to fervent prayer by millions of Christians in South Africa and beyond. In the past few years, a new movement aiming to globalize prayer has sprung up from this area beginning in Transformation Africa and now Global Day of Prayer annually beginning with a ten-day time of prayer and fasting each year on Ascension Day and culmination with the Global Day of Prayer on the Day of Pentecost. In 2010, over 220 nations participated. Pray with believers around the world that the gospel would penetrate to every tongue, tribe, and nation in this region!

WEST & CENTRAL AFRICA

Overview:

West and Central Africa embraces 24 countries with more than 500 least-reached people groups remaining. The countries of Senegal, Mali, Guinea, Gambia, Mauritania, and Niger lead the way with over 80% of their populations least-reached. Still, in terms of number of people, Nigeria has over 56 million people least-reached, although they represent only 33.8% of the total population of that nation. Islam had already reached the powerful tribes of West Africa long before the French colonized much of the region during the 19th century. For many centuries, Islam was the religion of the chiefs and elite since Arabs were primarily interested in profiting from the slave trade and not interested in making converts. When slavery was forbidden by the colonial powers, Islam spread faster in 50 years than it had in the previous eight centuries. Yet, Islam here is only the 5 pillars of Islam on top of their animistic traditional religions and animistic practices are particularly diverse. Here you will find voodoo, fetishes, ancestor worship, and idolatry. The church has grown rapidly especially in places like Nigeria which is now also a sending base for missionaries to other continents, but a great challenge remains every in their midst. AIDS in Africa now overshadows the future of the entire continent and added to that, the specter of poverty looms large over much of this region. Pray that God empowers our brothers and sisters in this region to rise to the challenge with good news and good works leading to transformations.

EAST EUROPE & EURASIA

Overview:

Eastern Europe and Eurasia are comprised of 20 countries with 258 least-reached peoples remaining among them. Kosovo leads with 90.7% of their population, almost 1.6 million people remaining least-reached. However, in sheer numbers, Russia exceeds them with over 13 million least-reached people in 89 different people groups. A decade of a measure of democracy associated with greed, crime, self-seeking politicians, a pervasive mafia and degeneration of the quality of life caused many in Russia to hanker after the authoritarian certainties of Communist dictatorship. The long-term disastrous distortions of Marxist economies in Eastern Europe adversely affected national infrastructures, ecology and the work ethic of the people. The dominant realities of the 1990's have been the gradual recovery of most former Communist states and the strengthening and planned expansion of the EU from 13 original members to most nations in Europe. Ethnocentrism and religion have become important and major causes for political confrontations since 1990. The church overall in Eastern Europe and Eurasia is small and struggling but there are rays of hope in places like Ukraine. Pray that the spirit of prayer will sweep through the church and revive it. Pray for laborers for this volatile environment that is ripe for the good news.

From tiny Cyprus with 23% of its population least-reached to France, Western Europe's greatest challenge in terms of the gospel, with a population of over 6 million least-reached people in 32 different people groups. LEAST-REACHED PEOPLES OF AMERICAS & CARIBBEAN

Overview:

“God, gold and glory” was the rallying cry of the Spaniards who went to the New World but God was the motivator for many Jesuit missionaries, and that put them in conflict with those who came to take the gold and enslave those who needed God. The divinely-ordered convergence in Latin America of greater freedom of religion, more open and accountable democracy, a series of military, natural and economic disasters which loosened the hold of traditional structures enabled many to come to Christ. Today there has been a rapid growth and maturation of missions vision which has sparked numerous initiatives to the unreached in this region and beyond. Communities from every ethnic group in Europe have settled in the Americas. It is possibly the area with the least religious discrimination and has been the world’s largest sending base for missionaries though that is now rapidly changing. Students, immigrant communities, and indigenous peoples remain a challenge for the gospel in this world’s wealthiest continent and the economic engine on which the world’s economy depends for growth. Yet the Body of Christ in the Americas and the Caribbean needs re-energizing to come alongside the rapidly emerging harvest forces from China, Russia, Latin America, India, Africa and other parts of the world. Pray for God to move among believers here and impart fresh vision for peoples joining together to glorify God among all peoples.

COOPERATION NOT COMPETITION:

Request that God removes competition and imparts a sense of cooperation to every believer, that we join hands with Him and one another to complete the task of reaching every “no-choice people”. “The man who plants and the man who waters have one purpose, and each will be rewarded according to his own labor. For we are God’s fellow workers; you are God’s field, God’s building.” 1 Corinthians 3:8-9

TURNING OBSTACLES TO OPPORTUNITIES:

Pray that God causes believers to value all the redemptive gifts in every culture and that He gives them the ability to respond to challenges with His grace and love so as to share the least-reached people groups in this region.

SEEKERS TO FIND:

Pray for those who have migrated to North America and the Caribbean as students, overseas workers, immigrants and refugees seeking education, opportunity or fleeing war, famine, or economic deprivation to find Jesus as their Resource, Refuge, Teacher, and Friend.

TURNING THE HEARTS OF THE FATHERS TO THE CHILDREN:

Pray for God to supernaturally cause the hearts of the older generation to understand and appreciate the gifts in the younger generation and for this emerging generation to value and esteem their elders, that families would be God-honoring examples of the Kingdom of God on earth.
